Clarifications and specific rules

In *Higher Education Diploma* prefix is not used. The main field of study is stated as specialization.

Prefix Science

Prefix *Science* (Teknologie) should include at least 15 credits in mathematics or applied mathematics. The exact interpretation of this can be found in Appendix 2. Exceptions to the special requirements for mathematics apply to Spatial Planning, based on the tradition found at other technical universities regarding the nearby main field of study Architecture.

Prefix Science in Business and Economics

Prefix *Science in Business and Economics* (Ekonomie) should include at least 30 credits in Economics.
